Education

Assam Science and Technology University: B.Tech. in Computer Science and Engineering (AI Specialization) 2025 – 2029

Kendriya Vidyalaya (OIL) Duliajan: 12th (77.6%), 10th (92%)

Skills

Programming: Python, Java, C++, TypeScript, SQL

Web Development: Frontend Development, Backend Development, REST APIs, Responsive Design, Authentication

Artificial Intelligence: Machine Learning, Generative AI

Databases: Relational Databases, NoSQL Databases, Database Design

Developer Tools: Git, GitHub, Cloud Deployment

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Experience

Mrinaljyoti Rehabilitation Centre (MRC) — Social Intern Jul 2025

- Completed a 20-day social internship focused on digital transformation and community service initiatives.
- Digitized beneficiary records and assisted in preparing personalized diet charts to improve data organization and accessibility.
- Collaborated with the rehabilitation team to streamline data management and support community outreach activities.

National Service Scheme (NSS), ASTU — Active Volunteer 2025 – Present

- Participate in community service initiatives, awareness campaigns, and campus volunteer programs.
- Contribute to social impact activities promoting education, environmental sustainability, and public welfare.

Mobius Coding Society, ASTU — Active Member 2025 – Present

- Participate in technical workshops, coding sessions, and collaborative software development activities.
- Contribute to hackathons, peer learning sessions, and discussions on AI, web development, and competitive programming.

Google Developer Groups (GDG) Guwahati — Community Member 2025 – Present

- Attend developer conferences, technical workshops, and hands-on sessions on AI, cloud computing, and modern software engineering.
- Engage with the developer community through networking, collaborative learning, and technology-focused events.

International Association of Engineers (IAENG) — Member Nov 2025 – Present

- Member of the IAENG Society of Artificial Intelligence.
- Member of the IAENG Society of Computer Science.
- Member of the IAENG Society of Software Engineering.

Projects

DevMon: A GitHub Credential Card Platform

🔗 Live | 🔗 DevMon

- Built a trading-card-style developer credential platform that scores real GitHub activity across 15 metrics and 5 behavioural attributes.
- Implemented HMAC-SHA-256 signed verification, 12 developer classes, 5 rarity tiers, PNG card export, and a leaderboard with company filtering.
- Stack: Next.js 14, TypeScript, Supabase PostgreSQL, Upstash Redis, Zod, Motion, GSAP. Deployed on Vercel.

Hive: Campus Collaboration Platform

🔗 Live | 🔗 Hive

- Built a platform where college students sign in with institutional Google accounts, create skill-based profiles, post projects, and find teammates.
- Implemented Google OAuth with domain validation, smart matching, real-time notifications, admin console, and GSAP cinematic scroll animations.
- Stack: Next.js 16, TypeScript, Neon PostgreSQL, Prisma, Auth.js, Tailwind CSS, GSAP + Lenis. Deployed on Vercel.
